General Information

EUNIS

EUNIS is the European University Information Systems Organization. It was formed in 1993. It has been registered as a non-profit organization in Paris, France in 1998.

EUNIS brings together those who are responsible for the management, development and the policy for Information Technology in Higher Education in Europe. The objective of EUNIS is to contribute to the development of high quality information systems. To achieve this, the aims of EUNIS are:

- Encourage exchanges, cooperation and debates between those responsible for information systems and University CIO in higher education or research institutes/organizations within Europe;
- Establish relationships with supervisory organizations in charge of information systems in higher education and in research institutes in each country as well as at European level.

EUNIS ANNUAL CONGRESS

EUNIS Congress is leading ICT congress in Higher education in Europe since 1998 that attract a large audience (300-400 professionals). They represent an opportunity for sharing of experience amongst international specialists, users, researchers, decision-makers, and teaching staff from all over Europe. Moreover, it is a very good event to present and publish the latest results of research, development, and deployment of Information Technology in HEIs.

Riga Technical University, located in Riga, Latvia, will host the 19th EUNIS Congress.

EUNIS 2013 Venue and Events

Congress venue

EUNIS 2013 Riga Congress will be held at the International Exhibition Center BT 1, which is situated within Riga Technical University Campus.

Full service International Exhibition Center BT 1 organizes high-level international and national exhibitions, forums and fairs, as well as has been participating as a co-organizer in different events held by its cooperation partners. This venue serves best the needs of EUNIS 2013 Congress, because of highly professional and responsible attitude to work, experience accumulated through years that allowed BT 1 to take the leading position among Latvian and Baltic exhibition organizers.

Poster presentations

Traditionally at EUNIS Congress all participants are encouraged to present a poster.

Posters will be on display for the entire Congress period and provide participants an excellent opportunity for networking. As with the session discussions, the poster session will be conducted off the record to encourage frank discussion and presentation of unconfirmed or partial results.

Exhibition

During the Congress Exhibition will take place where the leading Information Technology companies will display their solutions for Higher Education Institutions.

Participation at the Exhibition is a great opportunity to meet the Higher Education Institution professionals from all around Europe and introduce them with new IT services and products.

Social program

EUNIS 2013 Riga Congress will offer wide range of social events, which offer the possibility to communicate in more in-formal atmosphere and find new partners and customers. There is also a possibility to sponsor and brand all of these social events. The following social events are organized as part of the EUNIS Congress:

- Pre-Congress banquet
- Welcome reception
- Gala Dinner with entertainment
- Pre- and Post-Congress tours
- Accompanying persons' program

Award Ceremony

Each Year at EUNIS Congress Award Ceremony takes place through which three awards are presented:

The Congress Best Paper Award - The host institution organizes the award and a judging panel, which consisting of 3-5 members, selects the winner.

The EUNIS Elite Award for Excellence - This award is organized by the EUNIS Executive Secretary, who will make a separate call for submissions for the award through the EUNIS website. The award is an honorary award.

The EUNIS Dørup E-learning Award - This award is organized by a sub-group of the EUNIS E-learning Task Force led by a person appointed by the Board.

ABOUT RIGA PROGRAMME & DATES CONFERENCE HOSTS LAST YEARS PAPERS TRAVEL & HOTEL REGISTER NOW

Welcome
Dear Colleague,

Welcome to the EUNIS 2013 Conference website. The main theme of this year's conference is "Maintaining a sustainable Future for IT in Higher Education." When we gather in Riga this year we will have the opportunity to look to the future. Colleges and universities small and large face unbounded possibilities to innovate through technologies and information resources. This year's program committee are developing a quality program selected from many ideas, proposals and submissions. The 2011 Program is organised into the following three broad tracks. Welcome to the EUNIS 2013 Conference website. The main theme of this year's conference is "Maintaining a sustainable Future for IT in Higher Education."

- Knowledge Management
- Corporate IT
- Sustainable IT

Breakdown of the above three tracks and further detail is available at:
<http://www.eunis.ie/outline.html>

The conference will open avenues to explore new ideas and innovative solutions through a wide variety of sources: preconference workshops, parallel and plenary sessions, corporate sessions and exhibitions, poster sessions as well as a packed social programme. I hope that you will take this opportunity to network with friends and colleagues, to meet new colleagues, and to exchange ideas and information at the conference.

Organizers

Riga Technical University

Riga Technical University is the first technical university in the Baltic countries – its history dates back to 1862 when Riga Polytechnic was founded. Long lasting traditions, advanced teaching methods, new technologies and innovative approach provide the University with the opportunity to ensure research excellence and offer exciting full-time or part-time studies in RTU in Engineering Sciences, Technologies, Natural and Environmental Sciences as well as in Architecture and Engineering Economics.

Riga Technical University is an accredited internationally recognized European university that consists of 8 faculties and 35 institutes. It is the second largest university in Latvia by number of students, and it has the greatest number of state funded students.

The world is changing and University has to be prepared to take advantage of the challenges and opportunities offered. RTU is to become one of the leading universities in consolidating the research community in Latvia, Europe and the entire world.
