

DON'T PANIC:

a hitchhiker's guide to tackling SEP* fields via App Vetting

*SEP stands for Somebody Else's Problem

GDPR is often cloaked by the SEP field

Somebody Else's Problem Field (S.E.P. Field)

The Somebody Else's Problem Field, or SEP, is a cheap easy and staggeringly useful way of protecting something from unwanted eyes.....Any object around which an SEP is applied will cease to be noticed, because any problems one may have become Somebody Else's.

(Douglas Adams, Hitchhikers.wikia.com)

The TrustEd Apps seal

Suppliers must

- Subscribe to the TrustEd Apps Alliance (or be an IMS member).
- Complete a self-assessment to ensure that the application meets the required data privacy criteria in the IMS TrustEd Apps Rubric.
- Submit an application which is satisfactorily vetted by IMS staff using the [IMS TrustEd Apps Rubric](#).
- Collaborate with IMS staff to resolve issues that may arise in the IMS TrustEd Apps vetting process.

PRODUCT DIRECTORY

This is the *official listing* of products that have passed IMS Global interoperability certification. Using certified products will enable your institution to achieve the benefits associated with IMS. Certified products listed in this directory are guaranteed to meet the IMS standards for which they have passed testing. If you experience an integration issue with a certified product listed here, IMS will work with the supplier to resolve the problem. Non-certified products are also included when app vetting data is available. Questions? Contact us by filling out [this form](#).
