EUNIS

EUROPEAN UNIVERSITY
INFORMATION SYSTEMS

OpenU

Project in brief

Overall aim: create an open online platform for European universities (one-stop shop)

- Integrate existing digital resources and tools
- Playground for HEIs to try innovative approaches

Benefits: a single entry point for...

- Learning
- Mobility
- Cooperation

Deliverables and results:

- OpenU Hub
- Integration of digital tools and resources.
 - EWP, OLA, Erasmus Dashboard, MyAcademicID, PhDHub, online course catalogues, ...
- Guidance and methodology for HEIs on digitalisation, teaching and learning.
- Rollout of a single authentication mechanism for students and staff.

Connections to other projects

Erasmus Without Paper

- Online Learning Agreement
- Erasmus Dashboard
- Erasmus+ Mobile App

MyAcademicID

PhDHub

European MOOC Consortium

Online Short Learning Programmes

Integration Issues

MyAcademicID

- Authentication mechanism

Integration of online course catalogues

- HEIs will need to make sure that their course catalogue systems are based on machine-readable formats

Granularity of learning management systems

- So students can access only the courses they are allowed to join

Stable institutional identifier

- That is manageable, kept up-to-date and trusted
